

Whose really in control?

Paper is susceptible to

Misfiled, misplaced, or lost

Fire, water, or theft

Problems with digital files

Can be misplaced, deleted, or hard to find

Confusion caused when having duplicate versions

People might need the same file at the same time

Parsons Office Systems Inc.

Serving Central Texas Since 1944

Document Management System starting at only \$30 monthly. Purchase or payment options. We offer computer, server, & cloud options.

Protect your paper documents from fire, water damage, or theft. Paper and digital files of any type (email, Word, Excel, video, pictures, etc.) can all be **efficiently managed** within an easy to use Document Management System called Imaging Made Simple (IMS). IMS offers powerful features including **user access security features, audit trail** (who did what & when), **annotations** (notes, stamps, highlight, redact), **workflow, version control**, and much more. IMS helps you to **never lose documents** and to **find documents in seconds**.
